

On Wednesday, 26th November, the Chancellor of the Exchequer will be presenting the Autumn Budget to the House of Commons. With speculation and uncertainty about the choices that will be made in the Budget, from tax and spending decisions to changes in planning rules, you may be wondering what impact this might have on climate and nature action in the UK.

Join Hope for the Future for two free post-budget events, where you can learn what the Autumn Budget is for, how you can respond, and how you can inspire MPs to take action for climate and nature!

Our policy experts will take you on a step-by-step journey to understand the Autumn Budget and discuss the actions that you can take to influence the outcomes of it, supporting attendees to express opinions and encourage your representatives to take action!
